

## PUBLIC NOTICE

**PERMIT APPLICATION NUMBER:** NRS07-146

**APPLICANT:** Randall Williams  
C/O PBJ Engineering Design Development, LLC  
P.O. Box 316  
Franklin, TN 37065  
615-476-2940

**LOCATION:** 623 Lynnwood Blvd  
Davidson County (36.09805/long86.84660)

**WATERSHED DESCRIPTION:** The proposed impacts would affect an unnamed tributary to Belle Meade Branch. The stream flows through a narrow channel ~12 - 24 inches wide along the west side of the affected property acting as a conduit for storm drainage between two streets. Bill Duffel of the Nashville Environmental Field Office determined that the channel is an intermittent stream. The stream is dry and has a soil/gravel substrate shaded by several mature hardwoods on the property. The land use in the area is urban residential.

**PROJECT DESCRIPTION:** The project would involve the relocation of ~ 150' of the unnamed tributary into a channel 180'+/- in length to facilitate the renovation of the existing home and garage on a narrowly confined lot. The channel would be similar in character to the existing channel (relatively straight and shallow).

In accordance with the Tennessee Antidegradation Statement (Rule1200-4-3-.06), the Division has determined that the proposed activities will not result in degradation to water quality.

**USGS TOPOGRAPHIC QUADRANGLE:** Oak Hill, TN

**PERMIT COORDINATOR:** [Brian Canada](#)

No decision has been made whether to issue or deny this permit. The purpose of this notice is to inform interested parties of this permit application and to ask for comments and information necessary to determine possible impacts to water quality. Persons wishing to comment on the proposal are invited to submit written comments to the department. Written comments must be received within **thirty days of the date that this notice is posted**. Comments will become part of the record and will be considered in the final decision. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the department hold a public hearing on this application. The request must be filed within the comment period, indicate the interest of the person requesting it, the reasons that the hearing is warranted, and the water quality issues being raised. When there is sufficient public interest in water quality issues, the department shall hold a public hearing in accordance with Rule 1200-4-7-.04(4)(f).

The permit application, supporting documentation including detailed plans and maps, and related comments are available for review and/or copying at the department's natural resources section.

**TENNESSEE DEPARTMENT OF ENVIRONMENT AND CONSERVATION**

Division of Water Pollution Control, Natural Resources Section

7th Floor, L&C Annex

401 Church Street

Nashville, Tennessee 37243

In deciding whether to issue or deny a permit, the department will consider all comments of record and the requirements of applicable federal and state laws.
